PROFILE

Self-motivated and dedicated self-taught Frontend Developer with a passion for creating engaging and responsive web applications. Proficient in HTML, CSS, JavaScript, and various frontend frameworks. Strong problem-solving skills and a keen eye for detail in crafting user-friendly interfaces.

EXPERIENCE

- Designed and developed responsive websites and web applications utilizing HTML, CSS, and JavaScript.
- Implemented frontend functionalities using React.js to enhance user experiences.
- Collaborated with clients to understand project requirements and deliver high-quality, visually appealing websites.

PROJECT

- My initial project involved creating my portfolio website, showcasing my work and ongoing projects, while adhering to the KISS (Keep it simple, stupid) principle to ensure better usability and user experience.
- I developed a responsive school website within a month, prioritizing user-friendliness and adaptability.
- I have developed multiple websites for practice. For more details, you can explore my sites at [website]

MY JOURNEY : Introduced to coding in secondary school but not fully comprehending its workings, I initially didn't pursue it. However, in 2022, my tech-savvy uncle introduced me to HTML, CSS, and JavaScript, sparking a newfound passion for website creation. Despite encountering frustrations while exploring resources like FREECODE CAMP, BRO CODE, and others, I stayed dedicated to learning daily. To understand why I chose frontend development, visit my website for a deeper insight into my journey.
